Designer Introduction

My name is Markus Schlegel and I am a teacher for maths and history in Germany. I am passionate about classic cars and I have been recreating scale models of iconic cars using system bricks for nearly 30 years.

Although I prefer looks over functions I still try to include as many functions as possible at a rather small scale. Playability is also an important aspect for me while working on a brick-built scale model.

I am really excited about the cooperation between CaDA and MOC builders. It makes some of the best MOCs easily available for brick fans and helps the fan designers to fulfil their dream of designing an official set. So hopefully there will be many more CaDA Master Series sets.
